TRAINING

FOR THE ATHLETIC TRAINER

Learning Objectives:

- Define terminology related to the LGBTQIA+ community.
- Discover their own biases related to heterosexism and homonegativity.
- Describe the relationship between the social determinants of health and existing health and healthcare disparities experienced by members of the LGBTQIA+ community.
- Integrate the qualities of an ally and advocate to support members of the LGBTQIA+ community.
- Create an environment of inclusivity within their athletic training facility and/or classroom supporting members of the LGBTQIA+ community.
- Integrate best practices in providing equitable healthcare to LGBTQIA+ patients, including proper referrals, for this population.

Speakers:

Jennifer Sturtevant, MBA, LAT, ATC

Kelly Griffin-Brown. MS, NHLAT, ATC, EMT
